Welcome from the organizing committee

Our long-standing dream of bringing together the global oral and craniomaxillofacial community’s young surgeons to network, engage, and meet experts in their field, will be realized March 26–28, 2020, in Barcelona, Spain.

FACE AHEAD is the perfect meeting place for those eager to tap into a highly connected group of young, experienced talent. Showcase your new products, technologies, services, and solutions to this specialized group.

The overarching theme of this event will be personalized craniomaxillofacial surgery. Personalized solutions for CMF patients have been embraced and successfully applied for some time but now it is time to share best practice skills, techniques, technologies, and materials. New ideas and exchange of experience are crucial for future developments.

FACE AHEAD 2020 brings together industry, surgeons, and service providers to capitalize on shared experiences and success stories. This event provides both networking and education opportunities to the global community.

We look forward to seeing you in Barcelona in 2020!
